Feeding Avery Families battles food insecurity in Avery County

Photo credit: Jaren Gragg

NEWLAND - Feeding Avery Families is a nonprofit Christian organization, and the organization's mission statement is to end hunger and to help those in need in the Avery County area.

FAF is the largest food distribution facility in the county. In 2022, FAF gave citizens in the county 441,718 pounds of food. FAF estimated a percentage of around 17 percent of people in Avery County who experience some type of hunger and the workers and volunteers work to end that.

Dick Larson, executive director of FAF, shared that when people are in that type of need, they don't just need food. They also might need some type of healthcare or transportation and even housing, and FAF helps to direct those neighbors that come in

to the right path to get the attention in organizations that can get them the help that they need, like DSS or the hospital system.

FAF serves a wide range of populations in Avery County, and one of the diverse populations FAF is recently expanding toward is the Hispanic population of the area. FAF is now serving around 300 Hispanic families around the county. FAF also takes part in the Backpacks for Kids program, where they distribute backpacks to 150 students weekly to children who need them in the Avery County Schools system.

On Wednesdays from 9 to 11:30 a.m. and from 1 to 3 p.m., as well as on the second and fourth Friday of every month from 4 to 7 p.m., Feeding Avery Families distributes food to the community. When neighbors visit Feeding Avery Families they are not required to make appointments and can register when they get to the distribution center. Larson mentions that all of the distribution is based off of the honor system and the only information asked is a client's name, if they are receiving food stamps, and the income that you receive. FAF also wants to get information on how many individuals are in the household and the address where clients currently live.

When neighbors receive food from FAF, the box received includes a wide variety of food, such as bread, some meat, dairy products, produce items and nonperishable items like canned goods and pastas. Families with a household of 1 to 3 members will get one box, while households with 4 to 6 members will receive two boxes. Households with more will receive three boxes.

On April 5, 2023, FAF moved into its new Distribution Center, a 10,000-square-foot facility at an expense of \$1.2 million. This new center allows for double the space, and gives FAF the ability to have on hand not just food items but personal and hygiene items. It also has more coolers and freezers which allows FAF the ability to have frozen meats.

With this new facility it gives people the opportunity to come in and get their own box of food and "shop," which also allows the volunteers and workers at FAF to build a relationship with whoever comes, while giving them the care that they need.

This facility also gives the community a chance to learn about nutritional education and healthy cooking classes. Another option for the community is the drive-thru. It is very proficient and quick in-and-out access for people not wanting to leave their cars. The covered drive thru is a good option for when weather in the High Country is less than cooperative.

For more information about receiving benefits from Feeding Avery Families, or you are looking to help volunteer or to make a donation, contact FAF at (828) 783-8506, or visit the organization's webpage at feedingaveryfamilies.org. FAF can also be reached by email at P.O. Box 1075, Banner Elk, NC 28604. Feeding Avery Families is located at 189 Old Vale Road, Newland, NC 28657.
